and Research Excellence Support

**Supporting your scientific training,  
professional development,  
and career progression.**

# Recognizing Caregiver Responsibilities, Supporting Researchers

## PURPOSE

Family caregiving responsibilities impact careers differently.

FASEB CARES Award, a component of FASEB's Diversity, Equity, Accessibility, and Inclusion (DEAI) initiative, provides financial support to alleviate burdens associated with caregiving—enabling researchers at FASEB member societies to continue their scientific training, professional development, and career progression.

The award covers the cost of current and future professional goals, including but not limited to protected time for research, conferences and workshops, and certification programs.

## ELIGIBILITY

Primary caregivers who are members in good standing in at least one of FASEB's Full Member societies are eligible to apply.

## AWARD

Recipients are awarded \$5,000 based on their need and are limited to one application per application cycle.
