Leadership Engagement
and Appreciation of Differences

**Ensuring workplace diversity
through mentorship
and leadership.**

Making Impactful Change

Inclusion of differing viewpoints, cultures, and lifestyles has never been more important than now.

FASEB LEAD, a component of FASEB's Diversity, Equity, Accessibility, and Inclusion (DEAI) initiative, is an innovative reverse mentoring program that pairs senior-level professionals with junior-level mentors to gain different perspectives of individual, group, and cultural views within the workplace and scientific research communities.

Participants exchange personal views and workplace perspectives in safe-to-say environments, with the goals of becoming change agents and gaining broader perspectives of diversity, equity, and inclusivity that can improve decision-making processes at their institutions.

ELIGIBILITY

Researchers in the life sciences field, as well as staff at FASEB Full Member societies, are eligible to participate. Membership in a FASEB society is not required to participate in LEAD; however, individual members of FASEB Full Member societies will receive priority.
